WIPM ANNUAL CONFERENCE

June 6-9, 2024

We are pleased to announce The Society of Women Innovators in Pain Management (WIPM) fourth annual conference.

The conference will consist of leaders in the field of pain management coming together to discuss advances in the field and to encourage women to take active roles in leadership and research. Event speakers will share their training and professional experiences with event attendees and engage participants in further discussion of these topics. The event will conclude with a networking reception. Networking and discussions will be enhanced with the addition of surgeons and professional women of other industries sharing their experiences and providing attendees with roadmaps for career and professional development.

The meeting will take place in Chicago, Illinois, June 6-9, 2024. Our goal is to present cutting-edge information to practitioners of all levels and provide a forum to interact and discuss evidence-based medicine to improve the quality of care and access to care for patients. Industry partners and exhibits are an important part of our meeting's success and benefit both the attendees and companies who choose to participate. We anticipate an excess of 100 clinical providers specializing in pain management, interventional pain management, and neurosurgery to attend. All professionals interested in the field of pain medicine, regardless of identity are welcome to attend and support our mission.

Meeting Venue

Swissotel in Chicago, Illinois

WIPM has contracted and guaranteed room blocks with Swissotel. Hotel reservations are guaranteed on a first-come, first-served basis. Rooms have been blocked at a discounted rate. It is recommended that exhibitors book their rooms once sponsorship is determined to guarantee the lowest available rate.

Upgraded rooms are available upon request and pricing will vary upon request.

Program Needs Assessment

The 2024 WIPM annual conference is planned as a CME activity to enable practitioners of pain management to grow in their depth of understanding of various aspects of interventional pain management. WIPM's goal is to enhance patient care, allow members to fulfill CME requirements, provide networking opportunities, and preserve access to care. In addition to reviewing IPM techniques, guidelines, and emerging technology, the course will provide current information on practice management, research, and advocacy.

Learning Objectives

1. Use best practices in the assessment, diagnosis, treatment, and management of patients with pain.
2. Understand the necessary aspects of building and growing in a practice.
3. Comprehend the importance of, and the application of, research to their practices.

Expected Attendance

WIPM 2024 is expected to bring clinicians, scientists, and industry partners from all over the United States. We anticipate in excess of 150 clinical providers to attend, including physicians, advanced practice providers, engineers, scientists, and pharmacists.

Exhibit Hours

There will be two 30 minute breaks per day plus receptions. Please refer to agenda for specific times.

Exhibit and Tabletop Displays

Exhibition fees are included in the Platinum, Gold, Silver, and Bronze sponsorships. The location of display will be assigned by the planning committee. All breaks in the agenda will take place with exhibitors.
